EDUCATION

AlmaBetter

Diploma in Full Stack Data Science | June 2023

- Gained expertise in end-to-end data handling, analysis, and dashboard creation
- Worked on mock datasets using Python, SQL, Excel, and Power BI
- Emphasised project-based learning to simulate real-world analytical environments

Mahatma Gandhi Kashi Vidyapeeth University

Bachelors of Science | August 2019

PROJECTS & TOOLS EXPERIENCE

SQL (Structured Query Language)

- Written complex queries using JOINS, GROUP BY, subqueries, and window functions
- Efficient in data extraction and transformation from relational databases

Python for Data Analysis

- Proficient with Pandas and NumPy for data manipulation
- Created visualisations using Matplotlib and Seaborn for pattern discovery
- Handled basic data cleaning and transformation

Power BI

- Designed interactive dashboards with Power Query and DAX for business KPIs
- Performed data modelling and slicer-based analysis

Advanced Excel

- Used Pivot Tables, VLOOKUP/XLOOKUP, charts, and data validation for reports
- Built functional dashboards for business presentations

Additional Tools & Platforms

- Microsoft 365 Suite
- MS Server 2019
- Active Directory

SKILLS & INTERESTS

Skills: Data Cleaning, Exploratory Data Analysis, Visualisation (Power BI & Excel), Dashboarding, SQL Queries, Python Scripting, Microsoft 365, Power Query, DAX

Languages: English, Hindi

Interests: Reading books, Listening to music, Painting
